1. *Mr. Robarts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a “Confederation of Tomorrow Conference”.

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
7. *Mr. Harris*—Resolution—That the Ontario Hospital Insurance Plan should be expanded to provide coverage for the chronically ill and elderly citizens who must be cared for in nursing homes, and arrangements should be made to provide capital grants for the construction of nursing homes to be operated by public or other non-profit organizations.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.

9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
10. *Mr. Renwick*—Resolution—That this Government consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.
11. *Mr. Davison*—Resolution—That the Government should immediately extend hospital insurance coverage to persons in chronic and convalescent hospitals or in approved nursing homes who do not require continued medical and skilled nursing care but whose condition is such that, in the opinion of the medical practitioner, they cannot be returned to their own home or to a home for the aged.
12. *Mr. Gaunt*—Resolution—That Ontario Hospital Services Commission should extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that the nursing home is provincially licensed and inspected.

15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.

1. *Mr. Roberts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a “Confederation of Tomorrow Conference”.

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
7. *Mr. Harris*—Resolution—That the Ontario Hospital Insurance Plan should be expanded to provide coverage for the chronically ill and elderly citizens who must be cared for in nursing homes, and arrangements should be made to provide capital grants for the construction of nursing homes to be operated by public or other non-profit organizations.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.

9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
10. *Mr. Renwick*—Resolution—That this Government consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.
11. *Mr. Davison*—Resolution—That the Government should immediately extend hospital insurance coverage to persons in chronic and convalescent hospitals or in approved nursing homes who do not require continued medical and skilled nursing care but whose condition is such that, in the opinion of the medical practitioner, they cannot be returned to their own home or to a home for the aged.
12. *Mr. Gaunt*—Resolution—That Ontario Hospital Services Commission should extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that the nursing home is provincially licensed and inspected.

13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.
14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a "Bill of Rights" for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.
15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.

4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
7. *Mr. Harris*—Resolution—That the Ontario Hospital Insurance Plan should be expanded to provide coverage for the chronically ill and elderly citizens who must be cared for in nursing homes, and arrangements should be made to provide capital grants for the construction of nursing homes to be operated by public or other non-profit organizations.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.

9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
10. *Mr. Renwick*—Resolution—That this Government consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.
11. *Mr. Davison*—Resolution—That the Government should immediately extend hospital insurance coverage to persons in chronic and convalescent hospitals or in approved nursing homes who do not require continued medical and skilled nursing care but whose condition is such that, in the opinion of the medical practitioner, they cannot be returned to their own home or to a home for the aged.
12. *Mr. Gaunt*—Resolution—That Ontario Hospital Services Commission should extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that the nursing home is provincially licensed and inspected.

Also, that Ontario Hospital Services Commission should extend coverage to disabled children whose disability is so great that they are incapable of caring for themselves.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.
14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a "Bill of Rights" for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.
15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.

16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a “Confederation of Tomorrow Conference”.

OTHER MOTIONS

1. *Mr. Eagleson*—Resolution—That legislation should be enacted to provide compensation for persons suffering injury or loss while assisting the police in the performance of their duties or as a direct result of a criminal offence other than impaired or drunken driving.
3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens’ committees on a regional basis to publicize the importance of each citizen’s role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
7. *Mr. Harris*—Resolution—That the Ontario Hospital Insurance Plan should be expanded to provide coverage for the chronically ill and elderly citizens who must be cared for in nursing homes, and arrangements should be made to provide capital grants for the construction of nursing homes to be operated by public or other non-profit organizations.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.

9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.

10. *Mr. Renwick*—Resolution—That this Government consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.

11. *Mr. Davison*—Resolution—That the Government should immediately extend hospital insurance coverage to persons in chronic and convalescent hospitals or in approved nursing homes who do not require continued medical and skilled nursing care but whose condition is such that, in the opinion of the medical practitioner, they cannot be returned to their own home or to a home for the aged.

12. *Mr. Gaunt*—Resolution—That Ontario Hospital Services Commission should extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that the nursing home is provincially licensed and inspected.

Also, that Ontario Hospital Services Commission should extend coverage to disabled children whose disability is so great that they are incapable of caring for themselves.

13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a “Bill of Rights” for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.

15. *Mr. Lawrence* (St. George) —Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.

16. *Mr. MacDonald*—Resolution That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Robarts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a "Confederation of Tomorrow Conference".

OTHER MOTIONS

1. *Mr. Eagleson*—Resolution—That legislation should be enacted to provide compensation for persons suffering injury or loss while assisting the police in the performance of their duties or as a direct result of a criminal offence other than impaired or drunken driving.
3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
7. *Mr. Harris*—Resolution—That the Ontario Hospital Insurance Plan should be expanded to provide coverage for the chronically ill and elderly citizens who must be cared for in nursing homes, and arrangements should be made to provide capital grants for the construction of nursing homes to be operated by public or other non-profit organizations.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.

9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.

10. *Mr. Renwick*—Resolution—That this Government consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.

11. *Mr. Davison*—Resolution—That the Government should immediately extend hospital insurance coverage to persons in chronic and convalescent hospitals or in approved nursing homes who do not require continued medical and skilled nursing care but whose condition is such that, in the opinion of the medical practitioner, they cannot be returned to their own home or to a home for the aged.

12. *Mr. Gaunt*—Resolution—That Ontario Hospital Services Commission should extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that the nursing home is provincially licensed and inspected.

Also, that Ontario Hospital Services Commission should extend coverage to disabled children whose disability is so great that they are incapable of caring for themselves.

13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a "Bill of Rights" for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.

15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.

16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Robarts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a "Confederation of Tomorrow Conference".

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
7. *Mr. Harris*—Resolution—That the Ontario Hospital Insurance Plan should be expanded to provide coverage for the chronically ill and elderly citizens who must be cared for in nursing homes, and arrangements should be made to provide capital grants for the construction of nursing homes to be operated by public or other non-profit organizations.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.

11. *Mr. Davison*—Resolution—That the Government should immediately extend hospital insurance coverage to persons in chronic and convalescent hospitals or in approved nursing homes who do not require continued medical and skilled nursing care but whose condition is such that, in the opinion of the medical practitioner, they cannot be returned to their own home or to a home for the aged.
12. *Mr. Gaunt*—Resolution—That Ontario Hospital Services Commission should extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that the nursing home is provincially licensed and inspected.

Also, that Ontario Hospital Services Commission should extend coverage to disabled children whose disability is so great that they are incapable of caring for themselves.

13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.
14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a "Bill of Rights" for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.
15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.
16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration,

faculty and students, and of the community at large rather than just the business sector. . 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. . 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a “Confederation of Tomorrow Conference”.

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
7. *Mr. Harris*—Resolution—That the Ontario Hospital Insurance Plan should be expanded to provide coverage for the chronically ill and elderly citizens who must be cared for in nursing homes, and arrangements should be made to provide capital grants for the construction of nursing homes to be operated by public or other non-profit organizations.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.

11. *Mr. Davison*—Resolution—That the Government should immediately extend hospital insurance coverage to persons in chronic and convalescent hospitals or in approved nursing homes who do not require continued medical and skilled nursing care but whose condition is such that, in the opinion of the medical practitioner, they cannot be returned to their own home or to a home for the aged.
12. *Mr. Gaunt*—Resolution—That Ontario Hospital Services Commission should extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that the nursing home is provincially licensed and inspected.

Also, that Ontario Hospital Services Commission should extend coverage to disabled children whose disability is so great that they are incapable of caring for themselves.

13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.
14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a "Bill of Rights" for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.
15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.
16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration,

faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.

13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.
14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a “Bill of Rights” for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.
15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.
16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration,

faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a "Confederation of Tomorrow Conference".

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
7. *Mr. Harris*—Resolution—That the Ontario Hospital Insurance Plan should be expanded to provide coverage for the chronically ill and elderly citizens who must be cared for in nursing homes, and arrangements should be made to provide capital grants for the construction of nursing homes to be operated by public or other non-profit organizations.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.

11. *Mr. Davison*—Resolution—That the Government should immediately extend hospital insurance coverage to persons in chronic and convalescent hospitals or in approved nursing homes who do not require continued medical and skilled nursing care but whose condition is such that, in the opinion of the medical practitioner, they cannot be returned to their own home or to a home for the aged.
12. *Mr. Gaunt*—Resolution—That Ontario Hospital Services Commission should extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that the nursing home is provincially licensed and inspected.

Also, that Ontario Hospital Services Commission should extend coverage to disabled children whose disability is so great that they are incapable of caring for themselves.

13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.
14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a "Bill of Rights" for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.
15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.
16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration,

faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.

17. *Mr. Renwick*—Resolution—That this government should introduce legislation for the protection of tenants of self-contained units in multiple-dwelling accommodation and single-family dwellings, to include: 1. Abolishing Security Deposits. 2. Establishing of a Rental and Tenancy Review Board. 3. Enacting a standard form of lease to be used by all landlords. 4. Prohibiting landlords from charging tenants a fee for subletting an apartment. 5. Outlawing all clauses in leases restricting tenants' rights to purchase milk, bread, other foodstuffs and personal service from the merchant of their choice. 6. Prohibiting landlords charging for extra occupants. 7. Requiring landlords to provide adequate standards of maintenance, safety and health for their tenants. 8. Requiring all landlords to carry liability insurance. 9. Abolishing the landlord's right of distress. 10. Authorizing the courts to delete any clause of a lease which, in the court's opinion, is unreasonable.

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
7. *Mr. Harris*—Resolution—That the Ontario Hospital Insurance Plan should be expanded to provide coverage for the chronically ill and elderly citizens who must be cared for in nursing homes, and arrangements should be made to provide capital grants for the construction of nursing homes to be operated by public or other non-profit organizations.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.

11. *Mr. Davison*—Resolution—That the Government should immediately extend hospital insurance coverage to persons in chronic and convalescent hospitals or in approved nursing homes who do not require continued medical and skilled nursing care but whose condition is such that, in the opinion of the medical practitioner, they cannot be returned to their own home or to a home for the aged.
12. *Mr. Gaunt*—Resolution—That Ontario Hospital Services Commission should extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that the nursing home is provincially licensed and inspected.

Also, that Ontario Hospital Services Commission should extend coverage to disabled children whose disability is so great that they are incapable of caring for themselves.

13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.
14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a “Bill of Rights” for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.
15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.
16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration,

faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.

17. *Mr. Renwick*—Resolution—That this government should introduce legislation for the protection of tenants of self-contained units in multiple-dwelling accommodation and single-family dwellings, to include: 1. Abolishing Security Deposits. 2. Establishing of a Rental and Tenancy Review Board. 3. Enacting a standard form of lease to be used by all landlords. 4. Prohibiting landlords from charging tenants a fee for subletting an apartment. 5. Outlawing all clauses in leases restricting tenants' rights to purchase milk, bread, other foodstuffs and personal service from the merchant of their choice. 6. Prohibiting landlords charging for extra occupants. 7. Requiring landlords to provide adequate standards of maintenance, safety and health for their tenants. 8. Requiring all landlords to carry liability insurance. 9. Abolishing the landlord's right of distress. 10. Authorizing the courts to delete any clause of a lease which, in the court's opinion, is unreasonable.

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Robarts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a “Confederation of Tomorrow Conference”.

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens’ committees on a regional basis to publicize the importance of each citizen’s role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a “Bill of Rights” for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.
15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.
16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would:
 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature.
 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government.
 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector.
 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations.
 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students.
 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.
17. *Mr. Renwick* Resolution—That this government should introduce legislation for the protection of tenants of self-contained units in multiple-dwelling accommodation and single-family dwellings, to include:
 1. Abolishing Security Deposits.
 2. Establishing of a Rental and Tenancy Review Board.
 3. Enacting a standard form of lease to be used by all landlords.
 4. Prohibiting landlords from charging tenants a fee for subletting an apartment.
 5. Outlawing all clauses in leases restricting

tenants' rights to purchase milk, bread, other foodstuffs and personal service from the merchant of their choice. 6. Prohibiting landlords charging for extra occupants. 7. Requiring landlords to provide adequate standards of maintenance, safety and health for their tenants. 8. Requiring all landlords to carry liability insurance. 9. Abolishing the landlord's right of distress. 10. Authorizing the courts to delete any clause of a lease which, in the court's opinion, is unreasonable.

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Robarts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a "Confederation of Tomorrow Conference".

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a “Bill of Rights” for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.
15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.
16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.
17. *Mr. Renwick*—Resolution—That this government should introduce legislation for the protection of tenants of self-contained units in multiple-dwelling accommodation and single-family dwellings, to include: 1. Abolishing Security Deposits. 2. Establishing of a Rental and Tenancy Review Board. 3. Enacting a standard form of lease to be used by all landlords. 4. Prohibiting landlords from charging tenants a fee for subletting an apartment. 5. Outlawing all clauses in leases restricting

tenants' rights to purchase milk, bread, other foodstuffs and personal service from the merchant of their choice. 6. Prohibiting landlords charging for extra occupants. 7. Requiring landlords to provide adequate standards of maintenance, safety and health for their tenants. 8. Requiring all landlords to carry liability insurance. 9. Abolishing the landlord's right of distress. 10. Authorizing the courts to delete any clause of a lease which, in the court's opinion, is unreasonable.

18. *Mr. Nixon*—Notice of Motion—Notice is given that on Tuesday next an amendment will be moved to the Motion that Mr. Speaker do now leave the Chair and that the House resolve itself into Committee of Supply by the addition of the following words:

“but this House views with great concern the rising cost of municipal government, and, particularly, the intolerable burden of the cost of education among ratepayers in Ontario, and this House deplores the failure of the government to take steps to alleviate the situation and lessen the financial burden upon the citizens of Ontario at the municipal level.”

Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a “Confederation of Tomorrow Conference”.

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens’ committees on a regional basis to publicize the importance of each citizen’s role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East) —Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a “Bill of Rights” for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.
15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.
16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.
17. *Mr. Renwick*—Resolution—That this government should introduce legislation for the protection of tenants of self-contained units in multiple-dwelling accommodation and single-family dwellings, to include: 1. Abolishing Security Deposits. 2. Establishing of a Rental and Tenancy Review Board. 3. Enacting a standard form of lease to be used by all landlords. 4. Prohibiting landlords from charging tenants a fee for subletting an apartment. 5. Outlawing all clauses in leases restricting

tenants' rights to purchase milk, bread, other foodstuffs and personal service from the merchant of their choice. 6. Prohibiting landlords charging for extra occupants. 7. Requiring landlords to provide adequate standards of maintenance, safety and health for their tenants. 8. Requiring all landlords to carry liability insurance. 9. Abolishing the landlord's right of distress. 10. Authorizing the courts to delete any clause of a lease which, in the court's opinion, is unreasonable.

18. *Mr. Nixon*—Notice of Motion—Notice is given that on Tuesday next an amendment will be moved to the Motion that Mr. Speaker do now leave the Chair and that the House resolve itself into Committee of Supply by the addition of the following words:

“but this House views with great concern the rising cost of municipal government, and, particularly, the intolerable burden of the cost of education among ratepayers in Ontario, and this House deplores the failure of the government to take steps to alleviate the situation and lessen the financial burden upon the citizens of Ontario at the municipal level.”

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a "Confederation of Tomorrow Conference".

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a "Bill of Rights" for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.
15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.
16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.
17. *Mr. Renwick*—Resolution—That this government should introduce legislation for the protection of tenants of self-contained units in multiple-dwelling accommodation and single-family dwellings, to include: 1. Abolishing Security Deposits. 2. Establishing of a Rental and Tenancy Review Board. 3. Enacting a standard form of lease to be used by all landlords. 4. Prohibiting landlords from charging tenants a fee for subletting an apartment. 5. Outlawing all clauses in leases restricting

tenants' rights to purchase milk, bread, other foodstuffs and personal service from the merchant of their choice. 6. Prohibiting landlords charging for extra occupants. 7. Requiring landlords to provide adequate standards of maintenance, safety and health for their tenants. 8. Requiring all landlords to carry liability insurance. 9. Abolishing the landlord's right of distress. 10. Authorizing the courts to delete any clause of a lease which, in the court's opinion, is unreasonable.

19. *Mr. MacDonald*—Notice of Motion—Notice is hereby given that on Tuesday, March 21st, I will move to amend the motion that "Mr. Speaker do now leave the Chair and the House resolve itself into Committee of Supply" by adding thereto the following:

"but this House regrets the government's failure to take forthright action to deal with the high and increasing cost of living and, in particular, its failure to:

- (a) eliminate trading stamps and other promotional gimmicks in retail merchandising and to ensure that resulting savings will be passed on to the consumer;
- (b) to establish a public automobile accident insurance plan so as to reduce the exorbitant and rising rates now being charged in the province;
- (c) to undertake a large-scale program for increasing the supply of public housing so as to reduce the present pressure on the rents and prices of homes and at the same time make adequate housing available to those who cannot now obtain it;
- (d) to establish prices and rental review boards to enquire into, publicize and make appropriate recommendations regarding any increases in prices and rentals that appear to them to be unwarranted."

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a “Confederation of Tomorrow Conference”.

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

14. *Mr. Trotter*—Resolution—That this Government should enact legislation that is in effect a "Bill of Rights" for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.
15. *Mr. Lawrence* (St. George)—Resolution—That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.
16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.
17. *Mr. Renwick*—Resolution—That this government should introduce legislation for the protection of tenants of self-contained units in multiple-dwelling accommodation and single-family dwellings, to include: 1. Abolishing Security Deposits. 2. Establishing of a Rental and Tenancy Review Board. 3. Enacting a standard form of lease to be used by all landlords. 4. Prohibiting landlords from charging tenants a fee for subletting an apartment. 5. Outlawing all clauses in leases restricting

tenants' rights to purchase milk, bread, other foodstuffs and personal service from the merchant of their choice. 6. Prohibiting landlords charging for extra occupants. 7. Requiring landlords to provide adequate standards of maintenance, safety and health for their tenants. 8. Requiring all landlords to carry liability insurance. 9. Abolishing the landlord's right of distress. 10. Authorizing the courts to delete any clause of a lease which, in the court's opinion, is unreasonable.

19. *Mr. MacDonald*—Notice of Motion—Notice is hereby given that on Tuesday, March 21st, I will move to amend the motion that "Mr. Speaker do now leave the Chair and the House resolve itself into Committee of Supply" by adding thereto the following:

"but this House regrets the government's failure to take forthright action to deal with the high and increasing cost of living and, in particular, its failure to:

- (a) eliminate trading stamps and other promotional gimmicks in retail merchandising and to ensure that resulting savings will be passed on to the consumer;
- (b) to establish a public automobile accident insurance plan so as to reduce the exorbitant and rising rates now being charged in the province;
- (c) to undertake a large-scale program for increasing the supply of public housing so as to reduce the present pressure on the rents and prices of homes and at the same time make adequate housing available to those who cannot now obtain it;
- (d) to establish prices and rental review boards to enquire into, publicize and make appropriate recommendations regarding any increases in prices and rentals that appear to them to be unwarranted."

To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a "Confederation of Tomorrow Conference".

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
4. *Mr. Hamilton*—Resolution—That the Government should co-operate with the Federal Government to initiate and develop a national agricultural policy for Canada.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.

19. *Mr. MacDonald*—Notice of Motion—Notice is hereby given that on Tuesday, March 21st, I will move to amend the motion that “Mr. Speaker do now leave the Chair and the House resolve itself into Committee of Supply” by adding thereto the following:

“but this House regrets the government’s failure to take forthright action to deal with the high and increasing cost of living and, in particular, its failure to:

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a "Confederation of Tomorrow Conference".

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.
19. *Mr. MacDonald*—Notice of Motion—Notice is hereby given that on Tuesday, March 21st, I will move to amend the motion that “Mr. Speaker do now leave the Chair and the House resolve itself into Committee of Supply” by adding thereto the following:
- “but this House regrets the government’s failure to take forthright action to deal with the high and increasing cost of living and, in particular, its failure to:
- (a) eliminate trading stamps and other promotional gimmicks in retail merchandising and to ensure that resulting savings will be passed on to the consumer;
 - (b) to establish a public automobile accident insurance plan so as to reduce the exorbitant and rising rates now being charged in the province;
 - (c) to undertake a large-scale program for increasing the supply of public housing so as to reduce the present pressure on the rents and prices of homes and at the same time make adequate housing available to those who cannot now obtain it;

(d) to establish prices and rental review boards to enquire into, publicize and make appropriate recommendations regarding any increases in prices and rentals that appear to them to be unwarranted."

20. *Mr. Nixon*—Motion for Return—Letters of resignation from the six members of the Niagara Parks Commission.
21. *Mr. Nixon*—Motion for Return—The special audit of the financial statements of Warrendale Home undertaken by the government after it took over the responsibility for the administration of the Home on September 8th, 1966.

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Robarts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a “Confederation of Tomorrow Conference”.

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.
19. *Mr. MacDonald*—Notice of Motion—Notice is hereby given that on Tuesday, March 21st, I will move to amend the motion that “Mr. Speaker do now leave the Chair and the House resolve itself into Committee of Supply” by adding thereto the following:
- “but this House regrets the government’s failure to take forthright action to deal with the high and increasing cost of living and, in particular, its failure to:
- (a) eliminate trading stamps and other promotional gimmicks in retail merchandising and to ensure that resulting savings will be passed on to the consumer;
 - (b) to establish a public automobile accident insurance plan so as to reduce the exorbitant and rising rates now being charged in the province;
 - (c) to undertake a large-scale program for increasing the supply of public housing so as to reduce the present pressure on the rents and prices of homes and at the same time make adequate housing available to those who cannot now obtain it;

- (d) to establish prices and rental review boards to enquire into, publicize and make appropriate recommendations regarding any increases in prices and rentals that appear to them to be unwarranted."

20. *Mr. Nixon*—Motion for Return—Letters of resignation from the six members of the Niagara Parks Commission.
21. *Mr. Nixon*—Motion for Return—The special audit of the financial statements of Warrendale Home undertaken by the government after it took over the responsibility for the administration of the Home on September 8th, 1966.

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a "Confederation of Tomorrow Conference".

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.
19. *Mr. MacDonald*—Notice of Motion—Notice is hereby given that on Tuesday, March 21st, I will move to amend the motion that “Mr. Speaker do now leave the Chair and the House resolve itself into Committee of Supply” by adding thereto the following:
- “but this House regrets the government’s failure to take forthright action to deal with the high and increasing cost of living and, in particular, its failure to:
- (a) eliminate trading stamps and other promotional gimmicks in retail merchandising and to ensure that resulting savings will be passed on to the consumer;
 - (b) to establish a public automobile accident insurance plan so as to reduce the exorbitant and rising rates now being charged in the province;
 - (c) to undertake a large-scale program for increasing the supply of public housing so as to reduce the present pressure on the rents and prices of homes and at the same time make adequate housing available to those who cannot now obtain it;

- (d) to establish prices and rental review boards to enquire into, publicize and make appropriate recommendations regarding any increases in prices and rentals that appear to them to be unwarranted."
20. *Mr. Nixon*—Motion for Return—Letters of resignation from the six members of the Niagara Parks Commission.
21. *Mr. Nixon*—Motion for Return—The special audit of the financial statements of Warrendale Home undertaken by the government after it took over the responsibility for the administration of the Home on September 8th, 1966.
22. *Mr. Gaunt*—Resolution—That the Ontario Government should take steps immediately to include chiropractors, optometrists, osteopaths, dentists and other para-medical groups under the Medical Services Insurance scheme.

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a "Confederation of Tomorrow Conference".

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.
20. *Mr. Nixon*—Motion for Return—Letters of resignation from the six members of the Niagara Parks Commission.
21. *Mr. Nixon*—Motion for Return—The special audit of the financial statements of Warrendale Home undertaken by the government after it took over the responsibility for the administration of the Home on September 8th, 1966.
22. *Mr. Gaunt*—Resolution—That the Ontario Government should take steps immediately to include chiropractors, optometrists, osteopaths, dentists and other para-medical groups under the Medical Services Insurance scheme.

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Robarts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a “Confederation of Tomorrow Conference”.

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens’ committees on a regional basis to publicize the importance of each citizen’s role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
5. *Mr. Rowe*—Resolution—That marketing boards should explore the possibilities of agreements to do with the inter-provincial and international movement of farm products.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.

16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.
20. *Mr. Nixon*—Motion for Return—Letters of resignation from the six members of the Niagara Parks Commission.
22. *Mr. Gaunt*—Resolution—That the Ontario Government should take steps immediately to include chiropractors, optometrists, osteopaths, dentists and other para-medical groups under the Medical Services Insurance scheme.

6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.

13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.
16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students

III. NOTICES

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That this House approves the proposal, expressed in the Speech from the Throne, that the Government convene a "Confederation of Tomorrow Conference".

OTHER MOTIONS

3. *Mr. Thrasher*—Resolution—That, in furtherance of its conservation program, the Government should: (a) formulate a long-term program for the planning and co-ordination of water management on a regional basis; (b) encourage the establishment of citizens' committees on a regional basis to publicize the importance of each citizen's role in preventing pollution and to bring forward suggestions; (c) enact legislation to ensure that all detergents sold in the Province be biodegradable by no later than June, 1969; (d) call upon the Federal Government to initiate an Industrial Loan Fund to assist with the cost of pollution-control facilities and to continue the Tax Incentive Program now in effect.
6. *Mr. Olde*—Resolution—That the appropriate regulations should be amended to permit the sale of liquor from all normal outlets on any polling day in a provincial or municipal election, once the polls have been closed, and that this Government call upon the Federal Government for similar action in the case of Federal elections.
8. *Mr. Hodgson* (Scarborough East)—Resolution—That The Retail Sales Tax Act should be amended to exempt clothing purchased for or by children under 16 years of age.
9. *Mr. Reuter*—Resolution—That, in its long-range program for the development of our public parks, the Government should: (a) institute a system of classifying public parks to include the facilities available to the public in summer and winter; (b) increase the number of public parks in South-western Ontario; (c) improve the facilities available in all public parks by the provision of such amenities as hot and cold running water, showers, electrical outlets and sewage disposal facilities for trailers; (d) encourage greater use of public parks as winter playgrounds by providing facilities for such sports as skating, skiing, tobogganing, snow-shoeing, ice fishing, etc.
13. *Mr. Paterson*—Resolution—That the Province should arrange with Ottawa to amend the Income Tax Act to allow wives, working in seasonal agricultural and food processing plants, a \$500 annual tax exemption rather than the present \$250 allowed wives, so as to encourage these persons to work longer, thus alleviating the severe shortage of skilled help.
16. *Mr. MacDonald*—Resolution—That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students

can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector. 4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.

20. *Mr. Nixon*—Motion for Return—Letters of resignation from the six members of the Niagara Parks Commission.
22. *Mr. Gaunt*—Resolution—That the Ontario Government should take steps immediately to include chiropractors, optometrists, osteopaths, dentists and other para-medical groups under the Medical Services Insurance scheme.
23. *Mr. Reuter*—Resolution—That legislation should be enacted to amend The Planning Act, R.S.O. 1960, sections 26 to 29, as repealed and re-enacted at the 1960-61 Session of the Legislature, being Part 2 of the said Planning Act, dealing with areas of subdivision control, to provide that compiled or composite plans as described in The Registry Act, R.S.O. 1960, Sec. 94, be included as registered plans of subdivision.
